**Please check the FSMA website for chapter news and events at: [Fsmaonline.org](http://Fsmaonline.org)**

**Please keep checking the FSMA web site for chapter events. [Fsmaonline.org](http://Fsmaonline.org) go to chapter sections and click on Southwest.**

**Medicare Updates**

Are we ever ready for more updates? Seems as we get used to the new ones it is time for more changes to come we don't understand. By attending the seminar you will get the most up to date changes whether you are on an EHR or not. What happens and who is exempt from the EHR? Does it really make your life easier?

What role does the CMA have in the changes from documentation, coding, billing and meaningful use? If the physician is not compliant with the changes what can the CMA expect in regards to job security?

**Diabetic Education**

Learn about diabetes and how to educate yourself and how to help your patients live with this disease. Learn about carbs, proteins, fiber, fruit and veggies. More importantly learn about portion sizes. Learn how exercise plays a role in keeping diabetes under control. Learn about medication usage. In the end we will all learn how to live a healthier life style.

**Non-Verbal Communication**

Do you know what your patient needs by just looking at them? Does their face let you know they are not feeling well? What about body language? Can you read it or do you ignore it? Do you and your co-workers understand how non-verbal and body language can affect the care the patient receives? What is your body language saying about you to the patient? Learn how to effectively communicate with your patients and co-workers. It will lead to a less stressful day and a more enjoyable day at the office for both the patients and the employees.
